Harland and Wolff Heavy Industries Ltd (the Company) recognises that there is a duty to safeguard the environment in the execution of its business activities and has documented its commitment to environmental responsibility in this environmental policy statement (the Policy). Responsibility for the implementation, operation and satisfactory performance of this Policy, the aims of which are integrated with operational activities, lies with all the employees of the Company, and with the contractors and sub-contractors we utilise.

To support the Policy, we shall ensure that we:

- Set relevant objectives to successfully implement this Policy
- Commit necessary staff and resources to ensure that the objectives of the Policy are met
- Ensure that employees are trained as necessary to understand the Policy and have the necessary skills to implement it
- Monitor our performance against this Policy and seek continual improvement

Our aim is to minimise our environmental impact and enhance our positive contribution in a manner that balances cost effectiveness, quality and environmental issues with the views of our customers, employees, and suppliers along with regulatory and other interested parties by:

- Meeting or exceeding the requirements of relevant environmental legislation
- Having regard for the environmental effects of raw material sourcing
- Reducing waste and consumption of resources
- Influencing the design of products for optimal environmental performance
- Minimising the environmental effects of new developments through detailed planning
- Eliminating polluting releases to the environment and deployment of a continual improvement strategy within operations
- Maintaining certification of the established Environmental Management System to BS EN ISO 14001:2004, and improving the EMS

The effectiveness of this Policy will be regularly reviewed by management to affirm and maintain our commitment to minimizing our impact on the environment.
